Online Trading for the Company's Platform Users

Competitive Pricing and spreads: The Company is proud to offer competitive spreads on all currency pairs. On the major pairs as the EUR/USD, GBP/USD and USD/JPY, spreads start at 0.1 pips.

Forex Trading Times: Forex trading online is available 24 hours a day, 5 days a week allowing traders access during all market trading times, starting at 23:00 Sunday and closing at 21:00 Friday (GMT).

Order Sizes. The Company can execute any order size starting from 0.01 lots.

Swap/Rollover: If a trade is kept open overnight, then there is a swap/rollover fee/income calculated on that position. The cost or income is calculated as the overnight interest rate differential between the two currencies on which the position is held, depending on the type of the position (long/short). It is important to remember that one can gain or lose on swap and as such, one has either positive rollover or negative rollover. There is a possibility that some instruments may have negative rollover values on both sides therefore, the positive and negative values are decreased accordingly.

In the trading terminal 'swap' is automatically converted into the balance currency. Operation is conducted between 20:30 – 00:00 GMT. Triple swap is charged on Wednesdays.

Swap calculation = $(\text{Contract Size} * \text{Lot Size} * \text{Market price} * \text{Swap rate} / 100) / 360$.

Margin calls: Once the margin level of the trading account drops below 100%, the Company has the discretionary right to begin closing current open positions. Once the trading account's margin level drops to 50%, the company will automatically begin closing positions at the current market price, to restore the margin level of your account to above 50% Example: Margin level is calculated as $\text{Equity} / \text{Margin used} * 100$ On a 1 lot EURUSD position held by a trading account with the leverage of 1:30, the margin call will be reached when the account equity level drops below the margin required to hold the position. (in this case 300\$)
